SunPower Limited Product and Power Warranty for X-Series, E-Series, & A-Series AC Modules *This Warranty is effective for SunPower® photovoltaic modules for residential installation with "SPR-X" or "SPR-E" or "SPR-A" and "AC" in the product model number and sold after June 15, 2021.*

IMPORTANT: BY USING YOUR SUNPOWER SPR-X, SPR-E or SPR-A AC PRODUCT YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS LIMITED PRODUCT AND POWER WARRANTY AS SET OUT BELOW.

1. Limited Warranty

Subject at all times to the terms and conditions as set out in this Limited Product and Power Warranty, SunPower Corporation ("SunPower") warrants to the original purchaser of the AC Modules (as defined herein) ("Owner") that for 25 years beginning on the Warranty Start Date¹ (the "Warranty Period"), its photovoltaic modules specified above, including factory-integrated electronics, ("AC Module[s]"), shall be free from defects in materials and workmanship under normal application, installation, use and service conditions. The DC power of the AC Modules will be at least 98% of the Minimum Peak Power² rating for the first year, and will decline by no more than 0.25% per year for the following 24 years; thus the DC power output at the end of the final year of the 25th year warranty period will be at least 92% of the Minimum Peak Power rating (the "Guaranteed Peak Power" rating) and the AC power output of the system will be at least 90% of the Peak System Power³ for the full 25-year warranty period. SunPower shall have the right to perform firmware upgrades it, in its sole discretion, deems necessary on all systems and related components. **THIS IS NOT A PERFORMANCE GUARANTEE OR GUARANTEE OF ESTIMATED OR ACTUAL ENERGY COST SAVINGS.**

2. Claims Process and Coverage

If any AC Module fails to conform to this Limited Product and Power Warranty and provided that any loss in power is determined by SunPower (in its sole discretion) not to have resulted from one of the excluded events set forth in Section 4 below, then for the Warranty Period, SunPower will at its sole discretion, repair, replace or refund the defective AC Modules as set forth herein.

In the event you have a claim covered by this Limited Product and Power Warranty, immediately (a) notify your SunPower Dealer; or (b) contact SunPower Corporation directly at the contacts shown below. Upon receipt of a claim, SunPower will require additional information regarding the claim, which may include, without limitation, applicable warranty registration information, proof of purchase and/or delivery, installation, serial and model numbers, and evidence regarding the basis of the claim. If the Owner cannot provide these materials within thirty (30) days of SunPower's request, the claim may be denied. All SunPower warranty obligations hereunder are expressly contingent upon the timely and full provision of such additional information. The return of any AC Modules will not be accepted unless prior written authorization has been given by SunPower.

For any valid claim, SunPower will, in its sole discretion, either: (a) repair; (b) replace; or (c) refund a prorated value of the module based on the original purchase price subject to the conditions set out herein. In the event SunPower elects to repair or replace the affected AC Module, SunPower will pay for reasonable and customary transportation costs for: (i) the return of the AC Module from the place where the affected AC Module originally left SunPower's care, custody, and control, and; (ii) reasonable and customary transportation costs for reshipment of any repaired or replaced AC Module to the place where the affected AC Module originally left SunPower's care, custody, and control; (iii) for an AC Module that was originally installed by SunPower, any affiliate of SunPower, or any approved SunPower Dealer, SunPower will pay for reasonable, necessary, and actual removal and reinstallation costs of the repaired or replaced AC Module; provided, however, SunPower has sole discretion to select the party performing such removal and reinstallation.

In the event SunPower elects to replace any AC Module, SunPower will replace such AC Module with an electrically and mechanically compatible PV Module (including a refurbished or remanufactured AC Module) with a substantially equal or greater power rating. For any refund, original purchase price shall be prorated.

¹ "Warranty Start Date" is the earlier of (i) date of array interconnection and (ii) 6 months following the date of SunPower delivery. If the delivery date cannot be verified, manufacturing date will be used in its place.

² "Minimum Peak Power" is defined as the minimum rated power, as shown on the label. Peak Power is defined as the watt peak at Standard Test Conditions (1000 W/m² irradiance, AM 1.5, 25°C. SOMS current, LACCS FF and voltage from NREL calibration), as described in IEC 61215, measured per IEC 60904, and accounting for 3% measurement tolerance. SunPower AC Modules shall, in any event, require a sweep rate of no less than 200 ms to ensure an accurate power measurement. SunPower can provide a detailed testing procedure or a list of recognized testing agencies upon request.

³ "Peak System Power" is defined as the summation of the AC power, as shown on the label, of all the AC Modules in the system less any impacts due to shading, design limitations, and soiling.

3. General Conditions for Warranty Claims
