

Solar Installer

Certasun is Illinois's premier home solar company. We are 100% locally owned and live in Chicago and the suburban communities we serve. We are committed to an exceptional customer experience and the highest ethical standards. We are seeking enthusiastic professionals with solar, construction, roofing, or electrical experience to join our installation teams.

Responsibilities

- Safely install the world's best rooftop solar systems on customer homes across the Chicago metro area
- Work with the rest of the installation team to complete installations efficiently
- Collaborate with teammates: ensuring tools and materials are ready, problem-solving installation challenges as they emerge, and clearly communicating with customers and co-workers

Requirements

- Strong preference for experienced solar installers willing to learn Certasun's installation process
- Minimum one year of construction experience; experienced and comfortable working at heights
- Quality-conscious, taking pride in the work you do
- Happy working in a team environment; excellent communication skills
- Technically savvy: confident with mobile apps and eager to learn (more) about solar technology
- Able to lift 50lbs and willing to work hard in outdoor construction year-round
- Valid driver's license and reliable transportation for commute to job sites around Chicagoland area
- Able to pass drug test and criminal background check
- Authorized to work in the United States

Benefits

- Competitive compensation package
- Medical insurance coverage
- 401(k) with company matching
- Paid time off and paid holidays
- Tuition reimbursement and career development program
